Chemical Dependency Counselor

Community Counseling Center located at 2801 C Court in Ashtabula, Ohio, is a non-profit, behavioral health provider focused on engaging the community in recovery. We are currently seeking Chemical Dependency/AoD Counselors with experience providing direct counseling treatment to a wide range of individuals with an emphasis on substance abuse issues.

The Chemical Dependency/AoD Counselor must possess the following skills; individual, family, and group counseling methods; knowledge and techniques for facilitating personality/behavior change; ability to develop and implement treatment plans; skills in crisis intervention and emergency services; knowledge in the implementation of current applicable diagnostic standards; and specialized knowledge of the substance abuse field.

Bachelor’s degree in Counseling, Psychology or Social Work along with a Chemical Dependency certification or license is required. Master’s degree in Counseling or Social Work along with an LPC/LPCC or LSW/LISW is strongly preferred.

The position requires a valid driver’s license, driving infractions within the last three (3) years subject to the Corporation Handbook, and no DUI, drug, theft, or felony charges in the past. Must have reliable transportation and adequate levels of insurance and/or insurability.

Excellent salary dependent on degree, licensure, and experience along with health, dental, and vision insurance, 403(b), Life, STD/LTD insurance, generous paid time off and holiday package, and quarterly, performance-based bonuses.
